**Bridge of Names** – Meeting being held at Lake Pleasant Treatment Plant as Commissioners want to tour and discuss a lease at the old fire station and the Bridge of Names. Scott Nickerson is interested in buying fire station and the lot next to it. Bob Emond, Lake Pleasant Association President, stated they have no income but interested in a lease of the building and Bridge of Names. As for a lease agreement, the commissioners are not looking for monetary compensation just want it maintained. Lake Pleasant Association now does repairs as needed and takes care of all the maintenance. If they could raise money they would like to add electricity and water to the building so it could be used as a meeting place. Possible other uses for old fire station building, would be historical museum, gift shop sources of income for LPA. Main concern someone needs to take responsibility.

**Drought** – No concerns.

**District Accountant** – Eileen discussed articles for upcoming Annual District Meeting. Also shared audit statements and management letter from Melanson Heath.

All meeting members walked and toured the old fire station and Bridge of Names.

Next meeting scheduled for May 2, 2017.  
Meeting adjourned at 6:20pm.
